

Kotaiba Alali

Full Stack Developer & Business Analyst — Bridging Technology & Business

Damascus, Syria (open to relocation) | koteba.ali98@gmail.com | +963 937 022 083 | github.com/kotaiba-alali | linkedin.com/in/kotaiba-alali

PROFILE

Full-stack developer and business analyst with 3+ years of experience shipping production web systems end to end — from stakeholder interviews and requirements documents through to deployed, monitored code. Currently completing a Master's in Web Science (2026).

EXPERIENCE

Full Stack Developer & Business Analyst — FrontierTech

Damascus, Syria | Oct 2022 – Sep 2025

- Maintained 99.9% uptime across production services through proactive monitoring and incident response.
- Grew organic traffic by 35% by leading SEO-focused technical improvements and content structure work.
- Cut operational overhead by 18% by automating recurring manual workflows and reporting.
- Led Agile ceremonies for a cross-functional team, translating business requirements into sprint-ready user stories.
